MAKING THE MOST OF YOUR PLAN

What happens in case of missed premiums?

We allow you a grace period of 30 days in case your premium payment mode is quarterly, half-yearly or yearly mode and 15 days in case of monthly to pay the due premium. This period starts from the due date of each premium payment. In case of death during grace period, the Death Benefit under the policy will be payable after deductions of the premiums then due and all premiums falling due during the policy year of death.

However, if you fail to pay your premium before the expiry of the grace period:

- Where your policy has not acquired surrender value: Your policy will Lapse
- Where your policy has acquired surrender value: Your policy will continue with reduced benefits (as a Reduced Paid up policy)

What happens once your policy Lapses or becomes Reduced Paid up?

Lapse:

If you have not paid the due premiums for the first two full years within the grace period, the policy lapses. Life cover ceases and no benefits will be paid under the lapsed policy till the policy is revived.

Reduced Paid-Up:

If the premiums due under this policy have been paid for at least first two full policy years and subsequent premiums are not paid, then the policy will acquire Reduced Paid-Up status. The reduced paid-up policy will continue with the following benefits:

Death Benefit under Reduced Paid up policy:

On death of the Life Assured during the policy term due to causes other than accident, the original death benefit (as defined above) multiplied by Paid-up factor will be payable without deducting the paid-up monthly and paid-up annual payout already paid and the contract ceases immediately:

$$\text{Paid-up Factor} = \frac{\text{Total number of premiums paid}}{\text{Total number of premiums payable}}$$

On death of the Life Assured during the policy term due to accident, the original death benefit due to accident multiplied by Paid-up factor will be payable without deducting the paid-up monthly and paid-up annual payout already paid and the contract ceases immediately.

Survival & Maturity Benefit under Reduced Paid up policy:

The benefits on survival (monthly payout, annual payout) and maturity benefit will be reduced proportionately by the ratio:

$$\frac{\text{Total number of premiums paid}}{\text{Total number of premiums payable}}$$

Surrender Benefit under Reduced Paid up policy:

On surrender of Reduced Paid-up policy, the Surrender Value will be paid and contract gets terminated.

Can you restore your Lapsed/Reduced Paid up policy to the original benefit levels?

You can revive your Lapsed/Reduced Paid up policy within two years from the due date of the first unpaid premium by following these simple steps:

- Giving a written request to the Company within 2 years from the due date of first unpaid premium and producing a proof of continued insurability

- Paying the outstanding premium amount with the applicable interest rate, currently 8.25% p.a. for FY 17-18
- The prevailing interest rate is calculated as equal to 10 year G-sec benchmark interest rate as on last working day of the previous financial year +1.50%, rounded up to the next multiple of 25 basis points
- Fulfilling all medical and financial requirements as required by the Company as per the Board approved underwriting policy (the cost of medical examination, if any, will be borne by you i.e. policyholder/ Life Assured).

The Company reserves the right to accept or reject the revival of Lapsed/ Reduced Paid-up Policy as per the Board approved Underwriting Policy. Once the policy is revived, all the benefits will be restored to original benefits level, any due and unpaid benefit shall be paid immediately.

Can the plan be discontinued in between?

Life insurance works best if you invest regularly and for the long term.

However in case of an emergency/ contingency, you can surrender your policy anytime during the Policy Term, provided it has acquired Surrender Value. Policy acquires Surrender value after payment of first two full policy years' premiums.

Surrender Value:

The surrender value payable will be higher of Guaranteed Surrender Value (GSV) or Special Surrender Value (SSV).

Guaranteed Surrender Value:

The Guaranteed Surrender Value is the GSV Factor multiplied by the total premiums paid (excluding Applicable Taxes and extra premium, if any) less any monthly and annual payouts already paid. The GSV Factors are furnished in the tables below.
